

Al Zorah Golf Club

Situated in the UAE Emirate of Ajman, just along the coast less than 25-minutes from the Dubai International Airport, The Al Zorah golf complex sits at the heart of The Al Zorah Project, which is the master-plan of Solidere International in partnership with the Ajman Government.

The golf course has been designed by Nicklaus Design, the company of legendary 18-time Major Champion - Jack Nicklaus and includes an 18 hole championship layout.

Set within a stunning natural environment, with flowing dunes and an in-land Mangrove area, the highly desirable location will provide golfers with a unique golf experience with water levels shifting with the tides throughout the day, and completed with pristine course conditioning of the paspalum grass.

The level of personalized service delivered will only add to the experience that the golf course alone will give you. Our team of player assistants will be awaiting your arrival where they will ensure every detail of your day is explained. At Al Zorah you will also be exposed to the very latest in golf cart and GPSi technology as well as a retail experience that will showcase leading golf brands from around the world.
