

## **Al Zorah Golf Club**

The golf course has been designed by Nicklaus Design, the company of legendary 18-time Major Champion - Jack Nicklaus and includes an 18 hole championship layout with extensive practice facilities. Set within a stunning natural environment, with flowing dunes and an in-land mangrove area, the highly desirable location provides golfers with a unique golf experience with water levels shifting with the tides throughout the day, and completed with pristine course conditioning of the paspalum grass.

Ease of access is a common theme in the Al Zorah Project, with the course conveniently linked to the Village Centre and a plethora of leisure facilities within the project. Situated in the UAE Emirate of Ajman, just along the coast less than 30-minutes from the Dubai International Airport, the Al Zorah golf complex sits at the heart of The Al Zorah Project, which is the master-plan of Solidere International in partnership with the Ajman Government.
