

Wellness centre breaks ground at Ajman's Al Zorah development

by Jumana Abdel-Razzaq on May 27, 2018

Groundbreaking of EZ Wellness Centre at Al Zorah.

EZ Wellness Centre has broken ground on its first Middle East facility at Ajman's Al Zorah mixed-use development.

To be operated by The LifeCo, the EZ Wellness Center (EZW) will be set on the highest point of the community's 18-hole Nicklaus-Design Al Zorah Golf Club.

Popular for its detoxing and health centres in Phuket, Thailand and Turkey, the centre will provide beauty treatment, stress management, and exercise, nutrition advice, weight control, and diagnostics, among other services.

During the recent ground-breaking ceremony, Imad Dana, CEO, Al Zorah Development Company, said: "We're excited to begin construction on this exceptional facility and provide visitors and residents the perfect destination for physical, mental and spiritual rejuvenation."

Mohammed Ameer Said, the lead partner of EZ Wellness, said: "We are thrilled to mark the ground breaking of The EZ Wellness Centre at Al Zorah and will be building the brand's award-winning concept for the first time in the GCC.

"Other EZ Wellness facilities will follow soon in other GCC countries. The centre will be designed to blend with Al Zorah's dedication to state-of-the-art infrastructure and reverence for the environment."

Al Zorah is a mixed-use development by Solidere International and the Government of Ajman.
